PLEASE FILL OUT THE SURVEY

Council has a survey that they would like the residents of White Sands to fill out.

This survey should only take a couple of minutes. The Provincial government has changed it's municipal grant system and are asking that all funds from past programs are spent before the end of the year. Note that there are some limitations on what type of projects can qualify. In this survey, Council is seeking out the preferences of the community to help decide what type of project(s) should be pursued. Thanks for taking the time to help improve White Sands!
