

RESIDENT MEETING NOTICE
Summer Village of White Sands
May 2018

Mayor Lorne here to acknowledge the veritable storm of apprehension, anger and frustration caused by the proposed development of Paradise Shores and the potential consequences for our Village which both our ratepayers and council are dealing with.

Your administration and your council have been working extremely hard to ensure the most positive outcome that we are able to.

A lot of information regarding what we have been doing could not be released as much of it was "in camera", FOIP issues, code of conduct requirements and information that, if misunderstood or misinterpreted could be detrimental to our intent and add to our challenges. Council is obligated to act under these legislated rules.

It would appear that some ratepayers have redirected their frustration and anger from County of Stettler Council to Summer Village of White Sands Council. I do not believe that this is going to help our cause.

Your Council is planning a Resident Meeting regarding Paradise Shores development on Saturday, May 26, 2018 at 10:00 am at the Stettler Recreation Centre (upstairs at the HUB, 6202 – 44 Ave.). Our attorney will be in attendance. We recognize that there is a lot of passion out there regarding this subject but we will be insisting on a calm and organized meeting. The only way we are going to get through this is with respect and dignity and by being the kind of White Sands folks we are proud to be.

Thanks all! Hope to see you there.

Lorne Thurston, Mayor
For Council of Summer Village of White Sands
