

Summer Village of  
White Sands

July 2020 Newsletter

Greetings from your Council. Hope you all get an opportunity to enjoy some good lake life R&R in the near future. Just a few items:

- We may try to hold an annual meeting later this year depending on what the COVID rules say.
- New folks – please sign up to receive emails from the Village. If you type in “White Sands Alberta” you will find us on the stettler.net web site. You will find a place there to sign up along with other information about the Village.
- You must have a national accredited license to set off fireworks in the Village.
- All lots with an RV and/or an outhouse must have an approved concrete holding tank for sewer disposal. The Village will follow up to ensure everyone is compliant.
- You are only allowed up to 2 RVs per lot (bare or developed) unless you have applied for and received permission from the Development Officer for up to 4 per lot. This can be allowed up to 3 times a year for 5 days maximum.
- Sheds or accessory buildings on vacant lots or lots with RVs must be under 144 square feet or a permit needs to be applied for.
- We have no parking zones in the Village to maintain access for emergency vehicles as well as for everyone’s safety. We have communicated to our bylaw enforcement and the RCMP that our top priorities for enforcement are parking and speeding (especially on the boat launch road). Along with this: boats, trailers, and RV’s are not to be stored on village property.
- Just for interest – as of July 1, 2020, the lake was 9.1 inches over full.

Thanks, and Happy Summer everyone!

The Ol’ Gray Councillor Lorne Thurston  
For the Summer Village of White Sands Council
