

Summer Village of White Sands June 2021 Newsletter

Greetings all from your Council. We hope this finds you all healthy. Spring is certainly in the air. I for one am looking forward to the not-so-distant beach and boating weather. Here are some items of note from council:

- We need your feedback as it does not seem possible to hold a public meeting this year. Council is considering the placement of a structure at Jack's Pond. Over the years this area has been enhanced from a play ground to skating/curling/hockey rinks and a toboggan hill. To facilitate sporting events, over the past couple of years, Ed and Deb Waugh have set up their own tent for curling registration and a spot to warm up while participating in events. Once gathering rules are lifted, a structure could also facilitate pot lucks, winter solstice parties, etc. and provide a second option in addition to the hall for social gatherings. Council has considered a couple of options:
 - 1) A permanent 24 X 30 foot tent structure that would remain in place all year round.
 - 2) A take down tent that would be erected in the fall and taken down in the spring.

Please send your feedback to info@whitesandsab.ca.

The Ol' Gray Mayor Lorne Thurston
